Retail Manufactured Housing Inventory Tax Statement

*Contact either the county tax assessor-collector or appraisal district for the current unit property tax factor. The unit property tax factor is calculated by dividing the aggregate tax rate by 12. If the aggregate tax rate is expressed in dollars per \$100 of valuation, divide by \$100 and then divide by 12. It represents one-twelfth rate at the location where the inventory is located on Jan. 1 of the current year.

- MH Net retail manufactured housing inventory sale all units of manufactured housing held for sale at retail and defined as inventory by Occupations Code Section 1201.201. A manufactured home means a mobile home or a HUD-code manufactured home as defined under Occupations Code Section 1201.003. This excludes retailer sales and subsequent sales.
- RL retailer sale sale of manufactured housing to another retailer.
- SS subsequent sale retailer-financed sale of a manufactured housing unit that, at the time of sale, has retailer financing from your manufactured housing inventory in this same calendar year.
