Minutes - Board of Directors Meeting of April 11, 2024

USPAP review but did not come across anything that would be in violation of USPAP.

- David Terre states that everything comes back to training, space and staffing - Mr. Eimers highlights how difficult that is as the cycle continues - he sees great benefit in having a Director of Training and Development who can customize the training for the needs of the CAD
- Ann Pomykal - what is advice from Eimers to the Board in priority order? Mr. Eimers states that it is difficult to answer - some of these processes should have started 4-5 years ago. Be careful not to get the cart before the horse - new CAMA system will be huge to create new workflow systems - won't know for sure until "we are in the midst of it" - running dual systems for a while where necessary until complete conversion happens - CAMA conversion is going to be a huge process for any CAD - it's hard to hit all at once to get everything up to speed - may take 3-4 years to get everyone comfortable with every part of the process
- Ann Pomykal comments that the Board will need to be patient as the CAD staff is buried in the weeds trying to figure things out.
- Roy Atwood asks for Mr. Eimers opinion about the most beneficial office space - would it be 1, 2, or 3 buildings. Mr. Eimers believes that having 1 office building will be a huge benefit. One singular building will be beneficial to creating a more cohesive system.
